

Offshore Team Extend Model

Team Extend

Under Team Extend, Geval 6's teams / team member function as an extended arm of CLIENT' teams. Our teams will work closely with the customer in co-development mode as opposed to outsourced mode. Some of the characteristics of this model are:

- Developer works exactly US timings
- Is available on Video and Audio on Skype and Phone
- Informal and intense interaction.
- Methodologies, processes, and tools are customized for the engagement using a blend of prevalent practices at the customer and Geval 6 premises.
- Highly flexible since tasks assigned to individuals will be visible to the customer and can be changed at short notice.
- Continuity of personnel. Geval 6 personnel are virtually customer employees. The core team would exhibit knowledge of customer's business and ownership of customer's products comparable to customer employees.
- The commercial model is based on number of staff hours committed to Customer on a periodic basis.

Skills Available on Team Extend Model:

- Dot Net Developers
- QA Testers
- Microsoft BI Developers
- Mobile App Developers (iOS / Android)
- Java / J2EE Developers
